

# AN ADVISORY NOTICE

Mammoth Pacific Geothermal is set to begin construction of the Casa Diablo IV Geothermal Facility in the town of Mammoth Lakes in April of 2021 with plans to finish construction at the end of January 2022.

Construction vehicles including excavators, water trucks, front end loaders, skid steers and other heavy equipment will be present and operating in the area denoted on the map as 'proposed plant site' throughout the construction period. Please be aware of heavy equipment and remain outside of marked areas. There are no planned route closures.
